<p><b>Science (Cambridge Curriculum)</b></p>	<p><b>5.1 Life Cycles of Flowering Plants</b></p> <p>Parts and functions, life cycle including pollination and germination, seed and fruit production, and dispersal.</p> <p>Features of plants that attract pollinators, how seeds disperse and how plants are adapted to survive in different environments.</p>	<p><b>5.6 Seasons and Adaptations of Plants and Animals</b></p> <p>The Earth's place in the Solar System and how the orientation and orbit of the Earth affect the climate and seasons. Research satellites and their place in the Solar System.</p> <p>Processes of evaporation and condensation on Earth: the importance of our atmosphere and how the water cycle ensures the survival of living things. 'Pollution' and the negative impact humans have on our environment.</p>	<p><b>5.4 The Digestive System</b></p> <p>Learn about the digestive system of animals (including humans). They will understand the importance of an adequate, balanced diet and become aware of the health implications of a poor diet.</p>	<p><b>5.3 States and Properties of Matter</b></p> <p>States of matter, changes of state and dissolving. It uses water as the main example. Learners will understand the particle model as a method to describe different states and learn about the processes involved in materials changing state. They will investigate how some dissolve in liquids, and be separated again, relating this to real life experiences.</p>	<p><b>5.2 Sound</b></p> <p>Sound and how it moves through a medium, such as air or water, and is caused by vibrations at the sound's source. Scientific idea of waves.</p> <p>Learners will investigate making sounds and how the pitch and volume can be changed.</p> <p>Ask scientific questions, choose equipment when doing an experiment and identify patterns in results.</p>	<p><b>5.5 Forces and Magnetism</b></p> <p>Forces and how they act. Learners will be able to name forces, describe the situations forces are observed in and the actions that forces have. They will be able to describe how forces act in opposite pairs and that forces can be balanced or unbalanced in different situations. Force diagrams.</p> <p>Magnetism, magnetic materials and how they differ from magnets and understand relative magnetic strength.</p>
